

CLAROLINE VERSION 1

1. Changes in Course Form
2. Change all form fields to Bootstrap 5

▼ Basic settings

Course title *	<input type="text" value="e.g. History of Literature"/>
Code *	<input type="text" value="max. 12 characters, e.g. ROM2121"/>
Categories	<div>Sciences Economics Humanities</div>
<small>Feel free not to associate courses to any categories. The categories appearing in grey are invisible categories.</small>	
Language *	<input checked="" type="radio"/> English
Lecturer(s)	<input type="text" value="Admin Super"/>
Email	<input type="text" value="admin@admin.com"/>
Course access *	<div>Access allowed to anybody (even without login) ▼</div>
Registration settings *	<div><div><input checked="" type="checkbox"/> Allowed</div><div><input type="checkbox"/> Allowed with validation</div><div><input type="checkbox"/> Allowed with enrolment key</div></div> <div><input type="checkbox"/> Denied</div>

By default, all users registered to the platform can enrol to your course. If you want some confidentiality, the simplest way is to open registration during one week, ask the students to register themselves, then close registration and check for possible intruders in the user list. Another option is to define a registration key which will need to be entered by any student who wants to enrol to the course.
